VTEA/VCEC • P.O. Box 35537 • Richmond • Virginia 23235

## ***The Children's Engineering Journal***

Published annually in both hardcopy and online formats, *The Children's Engineering Journal* is archived on the VCEC website at <http://www.childrensengineering.org/journal/>.

*The Children's Engineering Journal* is VCEC's flagship journal. The journal is peer-reviewed and is a useful, interesting tool for elementary school teachers as they plan their students' engineering experiences. Content includes articles by elementary school teachers, design briefs, professional development information, and reports of current trends in technology, innovation, design, and engineering.

Notices of publication will be sent to educators across the nation through International Technology Education Association (ITEA) Innovation Station Listserv.
